8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

The Group's revenue for the first half year increased by 6.1% from \$75.1 million to \$79.7 million.

The Print-related business accounted for 68.4% of the Group's revenue and the Non-print business contributed the balance of 31.6%. In terms of geographical perspective, the Singapore operations remain the main revenue contributor of the Group's sales. The China operations are the second largest contributor.

The revenue of Print-related business dropped by 3.8% from \$56.7 million to \$ 54.5million due mainly to lower sales registered by both the Singapore and Australia entities as a result of price reduction and lower volumes. The drop in Print revenue was cushioned by the increased demand from customers in China. The Non-print business however registered a 36.5% growth in revenue for the first half year from \$18.3million to \$25.0million due mainly to increased transaction activities from the existing customers as well as new contributions from projects secured during the last quarter of FY 2010.

The Group's operating profit before tax for the first half year declined by 35.6% from \$9.0million to \$5.8million.

The operating profit before tax for the Print-related business (after allocation of corporate services expenses) dropped by 60.7% from \$5.6million to \$2.2 million. The drop was mainly

attributed to price reduction to key customers, lower demand from some customers, increase in material prices as well as increase in cost of operations, predominantly in the areas of transportation, rental and staff cost. The strong Singapore Dollar also resulted in unfavorable foreign exchange fluctuations.

The operating profit before tax for the Non-print business (after allocation of corporate services expenses) grew by 5.9% from \$3.4million to \$3.6million for the same period last year. The higher profit was mainly attributed to the contribution from the increased transaction activities of current projects. New projects secured have not started contributing due to the initial start-up expenses incurred.

The Group generated positive cash flow of \$2.7million from operations after working capital changes. It was \$3.9million for the same period last year. The reduction in cash flow generated from operations after working capital changes is mainly attributed to the reduction in profits generated as well as payment for inventories transferred for new projects.

Overall as of 30th June 2011, the Group's cash and cash equivalents remains healthy at approximately \$41.5million. The Group currently has no external debts.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The results are in line with the prospect statement that was disclosed during the full year 2010 announcement.

10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

The global economic outlook remains uncertain. The Group will continue to focus on its growth for both the non print and print business segments. For the print segment there is continued price pressure from customers due to stiff competition from the region. The Group will continue to enhance its cost management measures and productivity improvement initiatives, and to seek new upstream activities to widen revenue source to mitigate the increase in operating cost.

Barring any unforeseen circumstances, the Directors expect the Group to remain profitable for the current year.
